Secure Systems				
<b>TIDE</b>				
Test Information Distribution Engine (TIDE) allows users to: register students for assessments; establish test settings and accommodations; view students' associations with districts, schools, and rosters; download voice packs for testing computers; download test specific materials; monitor testing progress; and manage appeals, rosters, and user accounts. User account credentials created in TIDE provide access to all secure systems.

<b>ORS</b>				
Online Reporting System (ORS) provides dynamic data that can be used to gauge students' achievement on various assessments. Users can compare score data between individual students and the school or district average scores, and view achievement on claims. The system also provides participation data, summary statistics (participation count and percentages), and student data files for download. <sup>2</sup>

## AIR Ways

AIR Ways provides student performance reports for both the Interim Assessment and the Benchmark Modular Assessments. AIR Ways reports provide student performance data for a particular assessment or set of assessments. The type of data that appears in these reports depends on how the assessment is scored. Depending on the assessment, a report may display Score Data and/or Performance Level Data. Complete information about AIR Ways is available in the AIR Ways User Guide.

**Note:** If a user has multiple roles, the systems will automatically default to the lowest role upon login

Details about each task can be found within its system user guide. All online testing system manuals can be found on the [New Hampshire Statewide Assessment System Portal](#).

<sup>1</sup> Print-on-Demand can only be set by a district-level-user. SCs may work with all other appropriate test settings, including **Text to Speech**.

<sup>2</sup> State-wide Aggregate data will not be available until after the assessment window is closed. Due to the need for standards setting, some score information will not be available until Fall 2018.

<sup>3</sup> Teachers (TEs) will only have access to students within their roster.

<sup>4</sup> Teachers (TEs) will only have access to students within their roster. They can create sub-rosters within their group of students.
